

Q3
11. (Amended) A system according to claim 7[-10], wherein a questionnaire based on non-static text elements in the [design] second XML file, is created.

12. (Amended) A system according to claim 7[-11], wherein every non-static text element in the [design] second XML file has a reference to data in the [data] first XML file.

REMARKS

The claims have been amended to provide clarity and definiteness, and to place the claims in condition for examination.

Respectfully submitted,

PILLSBURY MADISON & SUTRO LLP
